

EMORY | COLLEGE OF ARTS AND SCIENCES

I. Confirm that your declared programs are correct and if needed:

II. Declare a new major, minor, or concentration

I. Confirm that your declared programs are correct.

1. Log into OPUS and navigate to the **Academic Progress** tile.

2. On the left Navigation Bar, click **Expected Graduation Term** and review your listed degree type, program(s) and concentration(s). Your degree type will be listed after the first Academic Plan: BS or BA.

Academic Progress			
Expected Graduation Term Advisors Degree Audit/Degree Tracker View What-if Report	Expected Graduation Term / Program Plan information		
	Expected Graduation Term / Program Plan information		
	Academic Program	Academic Plan	Academic Sub-Plan
	Liberal Arts & Sciences	Environmental Sciences BS	Ecology and Conservation
	Liberal Arts & Sciences	Mathematics Minor	

If the listed programs are correct, **no further action is needed**. If you need to request changes, continue onto section II.

II. Declare a new major, minor, or concentration

Students may change their major or declare a new major or minor **until they have earned 90 credit hours**.

After students reach 90 credit hours, they may not add or change a major or minor without approval from the Office for Undergraduate Education and the department that houses the new major or minor. Petitions to change or add a major/minor will only be approved if the student can graduate within eight semesters or if there are extraordinary circumstances. There is one additional exception to this policy. A student may switch from the BS version of a program to the BA version without approval from OUE ([Degree Requirements, Catalog](#)).

To petition a change, please complete [this form](#).
